PROJECTS

Data Analysis for Amazon Prime Titles

Jun 2024

- Utilized Google Sheets and Looker for data cleaning, preprocessing, visualization, and exploratory data analysis (EDA).
- Cleaned datasets by handling missing values, removing duplicates, and standardizing formats.
- Preprocessed data by scaling numerical features and encoding categorical variables.
- Created compelling visualizations to effectively present data insights.
- Developed a comprehensive dashboard highlighting key trends and patterns for improved decision-making and data-driven strategies.

Safety-Focused Travel App (Product Management PRD)

May 2024

- Conceptualized an app emphasizing security and authentic experiences for solo travelers.
- Defined project scope, outlined product requirements, and finalized PRD content.
- Ensured safety features were intuitive and effective.

SAP Projects

May 2024

- Developed a Barcode Scanner App and an IT Order App using SAP technologies.

Product Research & Metrics Product Manager

May 2024

- Proposed a comprehensive EdTech solution to combat student dropout rates by combining personalized learning paths and gamification.
- Aimed to enhance student engagement and increase course completion rates.
- Developed a strategy to provide tailored learning experiences and interactive elements to maintain student motivation and commitment.

School Web Application

May 2024

- Developed a responsive web application using HTML, CSS, and PHP for an assignment.

ACTIVITY

Person In Charge (PIC), Novo Club Meet Up Region

Feb 2024

- Led the planning and execution of Novo Club Meet Up.
 - Managing participant registration, agenda scheduling, and venue coordination.
 - Ensure a seamless event experience for all attendees.
-
